**Global Online Deposit, Withdrawal,
Transfer and Payment portal with
(999.9) fine gold for members
world-wide.**

DeeC Member Services

IBSP Gold is a registered trade name at IBSP International Inc, in co-operation with **DeeC**, Divine Economic Empowerment Council, where our purpose is to facilitate for members (DeeC) world-wide a new way to make instant deposits, withdrawals, transfers and payments with Fine Gold, presented online in different currencies.

The gold is isolated from monetary currencies but at the same time connected online to all world-wide currencies and can be used for transfers and payments world-wide between members.

IBSP gold bullion department in USA and DeeC with a license to purchase and sell gold online will assist members such as corporations, merchants and private persons to purchase and sell fine gold for their money without making a transfer to any third party.

The transactions are made in gold weight direct from any member account online to any world-wide member account.

DeeC members register online for gold accounts which are free for private persons, corporations and shop owners (Merchants). The DeeC platform includes internet transfer and payment functions, mobile internet and apps for Android and iPhone.

The platform supports deposit and withdrawal of gold and cash at branches where fees are taken from exchange rates between gold and different currencies.

If the world economy becomes unstable, the gold will still be in a safe location and not destroyed through super inflation or deflation.

The world economy is becoming more and more unstable and as governments and many banks desperately try to keep and protect the current financial system, it is of great importance to act and secure the future with solid assets as gold.

Most bank account holders are today protected by a limited (100000 Euros) governmental guarantee if the bank goes bankrupt or get insolvent. All DeeC users get 100% guarantees as all members have gold at their gold accounts.

All DeeC branches have the members gold stored at the local Reserve Bank's approved vaults in different locations world-wide and all DeeC gold account holders are able to make instant transfers and payments online or make a deposit or withdrawal of gold or cash at any DeeC branch office world-wide.

Transfer and payment can be done between members instantly world-wide using the member's mobile phone number connected to the member's main gold account.

The DeeC platform includes high secure administration interface with double action authentication with encrypted authentication ID Apps (VIP-ID) by overseers and remote third-party compliance department.

The DeeC Gold system is based on cloud technology and includes the following services for members:

- Core payment and transfer servers with disaster recovery system
- System database with overseer management administration
- Desktop internet payment and transfer service
- Mobile phone internet payment and transfer service
- Mobile Apps for fast service with VIP-ID for transfer and merchants
- Mobile Virtual Point of Sales (POS) for shop owners
- Corporate payment and transfer to DeeC account or external banks
- Corporate bulk salary module
- Exchange gold/currency online module
- Branch administration for Gold and Cash boxes
- Administration interface for super, branch management and tellers
- Online customer service and call centre support
- Anti money laundry (AML), Know your customer (KYC) platform
- Anti corruption (AC) platform and remote third-party compliance

The DeeC internet based gold payment & transfer services does not suffer from fraud problems, as do traditional internet based payment and transfers. In this way, fraud prevention has become an essential ingredient in the success of all different modes of financial transfers.

DeeC has leveraged digital security from Ardy Electronics Ltd, a world leader in security technology and its 30 years in secure communication, in order to respond to these needs by offering the most secure Cloud Solution on the market, providing a comprehensive set of services.
